For the Nine Months ended September 30, 2020 and 2019

(Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS

Ethos Gold Corp. (the “Company” or “Ethos”) was incorporated on March 12, 2007 under the British Columbia Business Corporations Act. In 2009, it began trading on the TSX Venture Exchange (“TSX-V”) as a Tier 2 company under the symbol ECC. Its registered office is located at 1430 – 800 West Pender Street, Vancouver, BC, V6C 2V6. The Company’s principal business activities are the identification, exploration and development of economically viable mineral properties.

These condensed interim consolidated financial statements have been prepared on the basis that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The ability of the Company to continue as a going concern is dependent on obtaining additional financing and if required through the issuance of debt or equity. There is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These financial statements do not reflect the adjustments or reclassifications that would be necessary if the Company were unable to continue operations in the normal course of business.

2. BASIS OF PREPARATION AND CONSOLIDATION

Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards (“IFRS”), as applicable to interim financial reports including International Accounting Standard 34 - Interim Financial Reporting. Therefore, these condensed interim consolidated financial statements do not include all the information and note disclosures required by IFRS for annual financial statements and should be read in conjunction with the annual consolidated financial statements and the notes thereto for the year ended December 31, 2019 (“Annual Financial Statements”).

The accounting policies applied in preparation of these condensed interim consolidated financial statements are the same as those applied in the most recent Annual Financial Statements and were consistently applied to all the periods presented.

These consolidated financial statements include the accounts of the Company, its Canadian subsidiary 1088151 B.C. Ltd., and its Mexican subsidiary Compañía Minera Roca Dorada, SA de CV. Subsidiaries are entities controlled by the Company. The Company controls a subsidiary when it is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over its subsidiary. All significant inter-company balances and transactions have been eliminated upon consolidation.

3. MINERAL INTERESTS (continued)

a) La Purisima, Mexico

On November 24, 2017, the Company, through its wholly owned Mexican subsidiary, Compañía Minera Roca Dorada, S.A. de C.V. (“Roca Dorada”), entered into an option to purchase agreement whereby the Company has the right to acquire a 100% interest in the La Purisima project, located in Chihuahua, Mexico (the “Property”). Pursuant to the option purchase agreement, the Company had the the option to acquire 100% of the Property by making cash payments totaling US\$3,495,000; issuing 3,000,000 common shares of the Company over a 72-month period and upon exercising the option granting a 2% net smelter returns royalty of which 1% could be repurchased for US\$1 million.

On August 24, 2018, the Company, through its wholly owned Mexican subsidiary, Roca Dorada, entered into an option to purchase agreement whereby the Company owns the right to acquire a 100% interest in 897 hectares of mineral concessions contiguous to the Company’s La Purisima project, located in Chihuahua, Mexico. The Company, at its sole election, can exercise its option to earn its’ 100% interest in the property at any time during the 10 years following the closing of the option agreement by paying the vendor US\$550,000.

To retain its right to acquire a 100% interest in the contiguous concessions the Company must make advance net smelter returns royalty (“NSR”) payments to the vendor as follows:

	Cash
On closing	US\$25,000 - paid
On the first anniversary of closing	US\$35,000
On the second anniversary of closing	US\$35,000
On the third anniversary of closing and every subsequent year thereafter until commercial production has commenced	US\$50,000

In addition to the cash payments, the Company issued 1,500,000 share purchase warrants entitling the vendor to acquire 1,500,000 common shares of the Company at a price of \$0.15 per share. The warrants will be exercisable for a period of five years, vesting as follows: 500,000 on closing (fully vested); 500,000 eighteen months after closing; 500,000 thirty-six months after closing. The second and third tranches of warrants will only vest if the Company has not terminated the option agreement prior to their vesting dates.

Upon closing, the Company paid US\$5,500 in outstanding concession taxes. During the term of the option agreement, the Company must keep the concession in good standing by paying the annual concession taxes.

Upon exercising the option, the Company will grant the vendor a 2.0% NSR on the property, of which half can be repurchased at any time by the Company by paying the vendor US\$1,000,000.

During the year ended December 31, 2019, the Company provided termination notices to the vendors of the La Purisima concessions and wrote down \$449,370 in acquisition costs. Upon termination, 1,000,000 warrants were cancelled prior to vesting.

3. MINERAL INTERESTS (continued)

b) Pine Pass Project, British Columbia

On July 31, 2018, the Company entered into an option agreement to acquire a 100% interest in three vanadium projects (Pine Pass, Ursula and Tunnel) in north eastern British Columbia. The Company can earn a 100% interest in the three projects by making the following cash payments and share issuances:

	Cash	Shares
Within five days of TSX Venture acceptance	\$80,000 (paid)	200,000 (issued)
On the first anniversary	\$120,000	400,000
On the second anniversary	\$160,000	600,000
On the third anniversary	\$240,000	800,000
On the fourth anniversary	\$400,000	1,000,000

If the Company completes the 100% acquisition of the three properties by making the above cash payments and share issuances the Company will grant to the vendors a 2.0% NSR royalty on all three projects, of which half can be repurchased at any time by the Company by paying the vendors \$1,500,000.

During the year ended December 31, 2019, the company did not renew the Tunnel project.

On June 20, 2019, the area in which the Pine Pass Project is located became subject to a moratorium on resource development (the "Moratorium") imposed by the Province of British Columbia in connection with caribou protection strategies.

On July 31, 2019, the Company entered in an amended option agreement (the "Addendum") with the vendors whereby the previous cash payments and share issuances are suspended indefinitely, pending the lifting of the Moratorium. The Moratorium will be deemed to have been lifted when the Company is no longer restricted by the Moratorium from carrying out exploration and development activities on the Pine Pass Project (the "Reinstatement Date"). Per the Addendum, to maintain the option agreement in good standing, the Company must make the following cash payments and share issuances:

	Cash	Shares
Within five days of TSX Venture acceptance of the Addendum	\$30,000 (paid)	100,000 (issued)
On July 31, 2020 (the "Second Interim Payment")	\$30,000 (paid)	100,000 (issued)
If the Reinstatement Date falls after July 31, 2020	\$60,000*	200,000*

* In the event the Moratorium is lifted, the final interim cash payment of \$60,000 and the issuance of 200,000 shares will be credited towards the first anniversary payments under the original agreement and the remainder of the cash payments and share issuances will be due annually on the Reinstatement Date, as per the original agreement.

In addition to the above cash payments and shares issuance, by the fourth anniversary of the Reinstatement Date, the Company will conduct and complete a PEA in respect of any one of the properties (Pine Pass or Ursula).

15. MANAGEMENT OF FINANCIAL RISK

The Company is exposed to credit risk, liquidity risk and interest rate risk from its financial instruments which include cash and cash equivalents, amounts receivable, accounts payable and accrued liabilities. The Company is not exposed to significant market or other price risks.

Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's cash and short-term investments are on deposit at a major financial institution. Amounts receivable consist primarily of goods and services tax refunds due from the Government of Canada and are neither past due nor impaired. As such, the Company considers its exposure to credit risk to be minimal.

Liquidity risk

Liquidity risk is the risk that the Company will be unable to meet its financial obligations as they come due. The Company is exposed to liquidity risk through its accounts payable, accrued liabilities and amounts due to related parties, which are all due on demand. The Company uses cash forecasts to ensure as far as possible that there is sufficient cash on hand to meet short-term business requirements. Cash is invested in highly liquid investments which are available to discharge obligations when they come due.

Interest rate risk

Interest rate risk is the risk that changes in interest rates will affect the fair value or future cash flows of the Company's financial instruments. The Company is exposed from time to time to interest rate risk as a result of holding fixed rate temporary investments of varying maturities. The Company reduces the risk that it will realize a loss as a result of a decline in the fair value of these investments by limiting these investments to highly liquid securities with short-term maturities.

As at September 30, 2020, the Company estimates that a 1% change in prevailing interest rates would change the fair value of future cash flows from the Company's financial instruments by approximately \$10,000 (December 31, 2019 - \$11,000).
